

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

July 16th-31st, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 16-31, 2004**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Friday, July 16, 2004</u>			
2001021030	Fresno 40 Development Project Fresno, City of Fresno--Fresno The "Fresno 40" site is planned and zoned for office development by the 2025 Fresno General Plan and the Woodward Park Community Plan. Zoning is R-P/UGM and C-P/UGM. The applicant proposes to amend relevent land use plans and rezone the site to allow development of a mixed-use project consisting of a community shopping center (including a supermarket), offices and mixed retail use, and approximately 20 residential units developed as upper-floor rental or condo units.	EIR	08/30/2004
2002021060	Anza-Borrego Desert State Park Parks and Recreation, Department of --San Diego, Riverside, Imperial To meet requirements set forth in Section 5002.2 of the Public Resources Code and Section 4332 of Title 14 of the California Administration Code, The California Department of Parks and Recreation is preparing a General Plan for the park. This plan will delineate a number of resource management zones and a set of goals and guidelines will be developed for each zone, which will guide park management, specific project management, and implementation. These goals and guidelines will address recreational, operational, interpretive, and resource management opportunities and constraints.	EIR	08/30/2004
2002051116	Costco Commercial Complex, Recirculation of Transportation Section San Dimas, City of San Dimas--Los Angeles The proposed project includes the demolition of existing structures on-site and the construction of a Costco warehouse facility with a tire center and gasoline service station, a fast-food restaurant, a "quality" restaurant, and two retail shops.	EIR	08/30/2004
2003062002	City of Turlock Harding Drain Bypass Project Turlock, City of Turlock--Stanislaus The City is proposing the construction of a new force main and outfall from the City's existing outfall at the Harding Drain located at the intersection of Harding Road and Prairie Flower Road to the eastern bank of the San Joaquin River. Other facilities associated with the force main, will include a pump station, post-aeration structure, submerged outfall and gravity line connecting the post-aeration structure to the outfall.	EIR	08/30/2004
2004042109	Colusa Casino Expansion Environmental Evaluation Cachil Dehe Band of Wintun Indians Colusa--Colusa The Tribe proposes to expand existing casino and construct new hotel and other associated supporting infrastructure on Indian lands.	FIN	
2004051020	Fillmore Water Recycling Plant Fillmore, City of Fillmore--Ventura Eliminate percolation ponds at proposed WRP site (i.e., "E" Street) Eliminate construction of Sub-surface Drip Line along the proposed Sespe Creek Levee. The proposed Sespe Creek Levee Would still be required to protect the	NOP	08/16/2004

	WRP from a 100-year flood event occuring along Sespe Creek.		
2004071092	Chicago Grade Landfill (DRC 2003-00026) San Luis Obispo County Planning --San Luis Obispo The proposed project involves an expansion of the current disposal area of the landfill by an additional 44.3 acres into the eastern portion of the subject property. This proposed expansion will increase the "waste footprint" to a total of 83.74 acres. The proposal also includes a request to increase the facility boundaries to encompass the entire 189-acre parcel in order to include all auxiliary landfill operations within the landfill facility boundary.	NOP	08/16/2004
2004071085	High School No. 3 Perris Union High School District --Riverside The District proposes to construct and operate a 2,800-student comprehensive high school campus on 60 acres. The high school would serve students grades 9-12 in approximately 280,000 sf of building space. Athletic facilities include a 3,000 seat stadium, varsity and junior varsity baseball and softball fields, and tennis and basketball courts.	Neg	08/16/2004
2004071086	GPA 04-86/R04-125/SP 89-15(04M)/TSM 417, Meadowlark Canyon San Marcos, City of San Marcos--San Diego A General Plan Amendment, Zone Change, a Zone change from commercial to residential (2-4 du/ac), a Specific Plan, and a Tentative Map to develop thirty-three single family lots on 17 acres and a private park/tot lot with an open space lot.	Neg	08/16/2004
2004071087	Beach Public Safety and Rest Room Project Coronado, City of Coronado--San Diego Replacement of an existing closed and condemned public beach main lifeguard tower; and construction of public beach rest room to replace existing temporary portable toilets. Both new facilities are to be on state lands (beach) managed and maintained by the City of Coronado, and to be constructed with City funds after obtaining a California Coastal Permit.	Neg	08/16/2004
2004071088	San Dieguito Boy's and Girl's Club Solana Beach, City of Solana Beach--San Diego A request for a Development Review Permit, Structure Development Permit and an amendment to a previously approved City Council Use Permit to add a swimming pool, theater, and associated building spaces, parking, retaining walls and signs to the existing campus.	Neg	08/16/2004
2004071089	Petersen Mixed Use Project Buellton, City of Buellton--Santa Barbara The project is a proposed Preliminary Development Plan (04-PDP-01) for the demolition of three of the existing five buildings located on property at 209 and 225 West Highway 246. The project proposes the construction of three commercial buidngs and one multi-family residential building in place of the demolished buildings. The proposed commercial buildings would include offices and small to medium sized retail businesses. The commercial units would range in size from 250 to 1800 sf. The proposed residential building would include five market-rate one-bedroom apartments.	Neg	08/16/2004

2002042037	Southwest Dixon Specific Plan Update and Tentative Maps Dixon, City of Dixon--Solano The project consists of a Specific Plan for a 477 acre area in the southwest portion of the City of Dixon. A Specific Plan for this area was originally written in 1995. A landowners group in the area requested changes to that plan, including reconfiguration of land uses, circulation, and zoning designation changes to the Storm Drainage Master Plan, and amendments to the Development Regulations. In addition, applications for five development projects within the Specific Plan area have been submitted to the City. These proposed development projects are also evaluated in the project EIR.	FIN	
2003101033	Arroyo Vista School Addition of Grades 7 and 8 Capistrano Unified School District Rancho Santa Margarita--Orange The proposed project involves the expansion of the existing Arroyo Vista Elementary School from grades K-6 to grades K-8. As a part of this project, student enrollment will be capped at 1,050 students in grades K-8. The school site is approximately 8.5 acres. A 3-acre portion of the privately owned Arroyo Vista Park is available to the school in accordance with an existing joint use agreement. The proposed project will include the establishment of a middle school "campus" on the northern side of the school site. This campus area will include 2 two-story modular units with 20 classrooms, a new performing arts building and a new library building. A 4th-5th grade area will be established on the western side of the school site, adjacent to Las Mesitas. This area will contain 1 two-story modular unit with 11 classrooms. An upgraded electrical transformer will be added to the existing electrical equipment. The school's existing parking lot will be redesigned to include an expanded student drop-off area if approved by the State.	FIN	
2004071091	Integrated Resources Plan Los Angeles, City of --Los Angeles The Integrated Resources Plan would involve expansion and upgrades to the City's wastewater, recycled water, and urban runoff systems. Improvements include increased treatment capacity at the Hyperion Treatment Plant, the Tillman Water Reclamation Plant, and the Los Angeles-Glendale Water Reclamation Plant, as well as new large-diameter sewers, and expanded recycled water distribution system, dry weather runoff flow diversions (to the sewer system), wet weather management features, and similar facilities. 	appropriate and necessary, and promulgate District authority to issue tax allocation notes and bonds and other long-term indebtedness in Project Area 3 No. 3; all to better and more effectively administer projects and programs within the Merged Project Area and to help alleviate blighting conditions, increase economic opportunities and provide affordable housing to qualified persons/families within the Merged Project Area and the surrounding community.		
2004042084	Spillway No. 20 Reconstruction Project El Dorado Irrigation District Placerville--El Dorado The District proposes to adopt a Mitigated Negative Declaration pursuant to the California Environmental Quality Act to reconstruct and use Spillway No. 20 at the Bull Portal of the Mill Creek to Bull Creek Tunnel, a facility of the Districts Hydroelectric Project 184. The proposed project would include automated gates and a housing structure and would be reconstructed in the original Spillway 20 location at Bull Creek Portal.	NOD	
2004042099	Warlick Special Permit Humboldt County Eureka--Humboldt Special Permit after-the-fact for the placement of 1,600+/- cubic yards of fill which was illegally placed in the wetland, and replanting the disturbed area. The removed fill has remained on-site (AP 402-101-34 & 36) and is temporarily stockpiled for future use on-site.	NOD	
2004042127	City of Red Bluff State Routes to School Bike and Pedestrian Path Red Bluff, City of Red Bluff--Tehama The project proposes to construct a bike and pedestrian path which includes a permanent stream crossing under the Jackson Street bridge at Brickyard Creek, tributary to Sacramento River, Tehama County.	NOD	
2004051071	N1 Regulating Reservoir Expansion Project Arvin-Edison Water Storage District --Kern The Arvin-Edison Water Storage District (AEWSD or District) proposes to expand the existing 36-acre N1 Regulation Reservoir located near the beginning of the District's North Canal. The proposed project (Project) will involve constructing approximately an additional 30 acres of regulation/recharge ponds. The N1 regulation/balancing reservoir provides canal regulation capabilities, access to stored water for power or load management and water recharge benefits. The original design of this facility was primarily for regulation purposes, but the percolation rate has turned out to be comparable to the District's other water banking facilities. As a result, the District has benefited from this facility in more ways than one. Since water is stored in the existing N1 Regulation Reservoir nearly year round (over an 11-month period) there are groundwater recharge benefits on nearly a continuous basis. Annually, the existing and the proposed reservoirs will have the capability of recharging over 5,000 acre-feet into the groundwater aquifer. By increasing the acreage on this site, more water is able to infiltrate into the groundwater aquifer. An added benefit of the Project is the flexibility it allows in regulating flows in the North Canal. In addition to reservoir expansion, four (4) groundwater recovery wells are being proposed for construction on the site of the existing and proposed reservoirs.	NOD

<u>Documents Received on Monday, July 19, 2004</u>			
	Annually, water recovered from the proposed wells is projected to average approximately 1,200 acre-feet with a maximum one-year recovery of 11,600 acre-feet. The amount of water recovered (extractions) will be less than the amount of water recharged. Thus, there is a net positive benefit to the groundwater aquifer from the Project. The District developed a 50-year analysis using DWR methodology to forecast groundwater banking operations and activities. Recovery wells would discharge into the N1 Regulation Reservoir for return to the North Canal. The District is committed to balancing recharge and well recovery volumes, with more water recharged than recovered over time in order to help mitigate any groundwater overdraft occurring within the District. With this project, both groundwater levels and groundwater quality are predicted to improve. The District would recover water from these wells during periods when irrigation demands cannot be met from limited surface water supplies.		
2004051072	Sycamore Spreading Works Expansion Project Arvin-Edison Water Storage District Arvin--Kern The Arvin-Edison Water Storage District (AEWSD or District) proposes to expand the existing 569-acre Sycamore Spreading Works (the Project) located on the alluvial fan of Sycamore Creek. The Project will involve constructing approximately an additional 90 acres of spreading/ recharge ponds. The area in which the expansion would be constructed is adjacent to existing ponds of the spreading works and would be hydraulically connected to them by additional control structures.	NOD	
2004051094	Injection of Gaseous Ozone at 76 Station 6965 Regional Water Quality Control Board, Region 4 (Los Angeles) Long Beach--Los Angeles Under the oversight of the Regional Board, ConocoPhillips proposes to use C-Sparge™ technology to remediate the dissolved-phase petroleum hydrocarbon plume beneath the site. The C-Sparge™ technology combines low-flow [3 to 6 cubic feet per minute (cfm)] air sparging with ozonation to oxidize petroleum hydrocarbons into benign byproducts, carbon dioxide and water. Ozone is generated onsite using a control panel with built-in compressor and ozone generator.	NOD	
2004052046	Housing Element Implementation Program #21 Fremont, City of Fremont, Newark, Union City--Alameda Staff proposes the re-designations and rezonings of Sites 4 and 5 to carry out a portion of the implementation of Program 21 of the Housing Element. This is one of many housing element implementation programs. In Program 21, the Housing Element mandates that the City of Fremont consider rezoning of certain "commercial and industrial" properties on the easterly side of Interstate 880 to residential developments aimed at intensifying densities in certain locations along major parkways and arterials and where higher residential densities already exist.	NOD	
2004052047	Housing Element Implementation Program #18 Fremont, City of Fremont, Newark, Union City--Alameda City-initiated General Plan Amendment and Rezoning application to allow multi-family housing on Sites 1, 4, and 5, which are multiple parcels comprising 21.9 acres of land that are located in three separate portions of the city. 2004078272	Replacement of McGaffigan Mill Road Bridge Fish & Game #3 --Santa Cruz The Operator proposes to remove an existing timber frame one-lane privately owned bridge, and replace it with a single clear-span steel girder and concrete deck bridge. Bridge dimensions are approximately 90 feet x 11 feet. The bridge crosses the San Lorenzo River within steelhead passage and rearing habitat. Issuance of Streambed Alteration Agreement Number 1600-2003-5089-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004078273	Saratoga Creek Water Treatment Plan Raw Water Intake Improvement Project Fish & Game #3 Saratoga--Santa Clara The San Jose Water Company is proposing to replace and upgrade their existing water diversion facility on Saratoga Creek. The intake replacement and reconstruction is comprised of several elements: (1) removal of existing intake facilities, (2) new intake facilities, including an infiltration gallery and wetwell replacement with the addition of a fish screen, (3) repair and stabilization of the existing concrete drop structure, (4) dam improvements, including replacement of the inflatable dam with a pneumatically operated and controlled rubber dam, and (5) a fish passage flume, control gate and fish ladder.	NOE	
2004078274	Issuance of Streambed Alteration Agreement #04-0056, Freshwater Slough, tributary to Eureka Slough, Humboldt County Fish & Game #1 Eureka--Humboldt The project will replace PG&E's existing 8-inch diameter gas transmission pipeline crossing of Freshwater Slough with a new 8-inch diameter pipeline segment. The 700 foot long pipeline segment under the slough will be placed using horizontal directional drill techniques, and will be approximately 40 feet below the bed of the slough. Open trench pipeline construction will be used for an additional 500 foot long segment of pipe in the low-lying pasture on the north side of the slough.	NOE	
2004078275	Issuance of Streambed Alteration Agreement #04-0162, Trinity River, tributary to Klamath River, Trinity River Fish & Game #1 --Trinity The project proposes to place 2,700 cubic yards of 1/4 ton rock slope protection along the north bank of the river between the paved shoulder of State Route 299 and the summer low flow channel, to protect the highway from erosion during high flows. No construction activity will occur within the flowing stream.	NOE	
2004078276	Issuance of Streambed Alteration Agreement #04-0110, Eel River, tributary to Humboldt Bay, Humboldt County Fish & Game #1 Rio Dell--Humboldt The project proposes to install a water infiltration gallery within a gravel bar adjacent to the low flow channel on the west (left) bank, and install a wet well structure below grade on the high river bank, to allow the City to pump water for domestic supply as approved by existing water rights issued by State Water Resources Control Board.	NOE

	Company to provide potable water for the subdivision. The project includes development of all required infrastructure.		
1999031096	Santee Trolley Square (Town Center Specific Plan Amendment TCSPA98-03; CUP 98-12) Santee, City of Santee--San Diego The proposed Amendment to the Santee Town Center Specific Plan is focused around a corporate and technology office campus. The Specific Plan Amendment would enable this eastern portion of the existing Santee Town Center to be developed with approximately 2.5 million sf of residential and commercial/office uses. The Town Center would provide an office employment base, which currently does not exist in Santee. The principle theme of the plan amendment is to provide a focus for Santee and create options for living, working, and recreating in one central location.	NOP	08/18/2004
2004071063	Tentative Tract Map No. 239/Walters (Whitney Portal Preserve Subdivision) Inyo County Planning Department --Inyo Proposed use of site is developed as a single-family residential subdivision, to consist of 27 lots 2.5 acres in size, each serviced by an individual water well and septic system. This development corresponds with both the existing zoning and Inyo County General Plan designation for the property, so no general plan amendments, Variances, or Conditional Use Permits are required.	NOP	08/18/2004
2004071064	Valley Vision: A Neighborhood Sustainability Plan San Gabriel, City of San Gabriel--Los Angeles The Valley Boulevard Neighborhood Sustainability Plan would guide the improvement and future development of the Valley Boulevard corridor and surrounding neighborhoods via a specific plan over a 20-year planning period. The primary goal of the Sustainability Plan is to maintain and enhance the quality of life of the residents of San Gabriel, in particular the Valley Boulevard Neighborhood. A key approach taken by this proposed Sustainability Plan is the integration of sustainable practices within the Plan area. "Sustainability" is an approach that integrates environmental, economic, and social goals and actions to minimize negative impacts on the environment, while protecting the health and well-being of people.	NOP	08/18/2004
2004072100	2001.0636E - Wharf J-10 Demolition and (Partial) Reconstruction San Francisco Planning Department San Francisco--San Francisco The project would include the demolition of the existing 24,400-sf wharf, including substructure and pilings, as well as the existing approximately 21,000 sf, 18-foot tall fish processing building. After demolition of Wharf J-10, the Port would improve the site by repairing the existing seawall, creating a level surface along the north side of Fish Alley, and stabilizing the water's edge with rip rap. After demolition, the existing tenants of the site would have the option of rebuilding facilities to serve their businesses. In addition, the Port would construct an approximately 3,435 sf fish receiving wharf within a portion of the area now occupied by the existing fish processing building on Wharf J-10.	NOP	08/18/2004

2004071101	Water Main Improvement Project Huntington Beach, City of Huntington Beach--Orange The proposed project will consist of eliminating four grated catch basins and approximately 50 feet of eight inch pipe that connects to the City's existing sewer system and install a new storm drain system. A total of eight catch basins, 13 manholes and approximately 3,190 feet of pipe will be installed. In addition, some curb and gutters will be removed to accommodate the installation of the eight catch basins. Installation of the storm drain will also require the removal of several sections of sewer main and reconstruction of the associated drop manholes. In addition, the proposed project will consist of constructing a 36 inch pipe within the existing roadway at the intersection of Alabama Street and Joliet Avenue that will continue south down the eastern side of Alabama Street to the intersection of Alabama Street and Atlanta Avenue., then westerly down Atlanta Avenue to the intersection of Atlanta Avenue and First Street, then continuing down First Street south of Olive Avenue where a new 42 pipe will tie the existing storm drain.	Neg	08/18/2004
2004071102	S2004-02 Eagle Knolls Harbor Maintenance Excavations Big Bear Municipal Water District Big Bear Lake--San Bernardino Remove 6800 cubic yards of sediment that storm drains and runoff from the surrounding watershed have deposited in the Eagle Knolls Marina Harbor. Material will be trucked off the project site and hauled to an area at the maintenance yard of the Big Bear City Community Service District located at 372 Greenfall Lane in Big Bear City, approximately 8 miles. Once removed the area of excavation will provide improved navigation for marina users.	Neg	08/18/2004
2004071103	Tentative Parcel Map (TPM 609)/Negative Declaration (ND 03-672) San Marcos, City of San Marcos--San Diego Subdivide 2.55 acres into two parcels (1.63 and .93 acre lots), and the subsequent grading of the northern portion of the site to construct one additional single-family residence on the property. Coastal sage scrub habitat, chaparral, woodland.	Neg	08/18/2004
2004071104	04-050/ PM061062 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request to allow the construction of seven commercial condominium units (total of 78.065 sq.f.) for offices, manufacturing, and warehousing. The proposed development also includes 112 parking spaces, two outdoor electrical service transformer, three outdoor trash and recycling enclosures, a driveway and monument sign. Operating hours will generally be from 7:00 a.m. to 7:00 p.m. weekdays with limited operations on weekends. There will be a maximum of 156 employees working at the site with approximately 13 truck trips generated per day.	Neg	08/18/2004

	management practices. The Water Management and Exchange consists of two main components: (1) formalizing TRC's present diversions and re-diversions of water from local streams and beneficial uses of this water for agricultural, resource and irrigation purposes, as specified in the SWRCB Applications 30325 to 30329 and 31043 to 31048 and a Memorandum of Understanding between WRMWSD and TRC; and (2) establishing a long-term agreement between TRC and WRMWSD that is similar to WRMWSD's current User Input Program. TRC would construct ten new pipelines and nine new weirs to divert water from local creeks as part of the proposed project. WRMWSD proposes to construct a pump-back facility to pump water from the 850 Canal into Reservoir No. 1 during off-peak energy use hours. The pump-back facility would require the replacement and extension of an existing pipeline and the installation of a new pump station and possibly a hydroelectric generator to produce electricity during peak hours.		
2001082030	El Dorado County General Plan El Dorado County Planning Department --El Dorado Adoption of Resolution No. 234-2004 of the Board of Supervisors of the County of El Dorado Certifying the Environmental Impact Report for the El Dorado County General Plan; Issuing a Statement of Overriding Considerations; and Making Findings of Fact. NOD	
2003071179	Comstock Homes Development and Ellwood Mesa Open Space Plan Goleta, City of --Santa Barbara The project includes the following components: 1) Subdivision by the City of Goleta of Santa Barbara Shores Park into a 36-acre lot for the Comstock Homes Residential development and an 80-acre lot be retained by the City as part of the Open Space area; 2) a land exchange whereby Comstock Homes will transfer title to the 136-acre Ellwood Mesa property to the City of Goleta in exchange for the 36-acre lot at Santa Barbara Shores Park and additional compensation; 3) rezoning of the 36-acre lot from the Recreation zone to an appropriate residential zone and the 136-acre Ellwood Mesa property from the Planned Residential to the Recreation zone; 4) subdivision by the Comstock Homes of the 36-acre parcel into 84 lots, with 78 lots for single-family houses and 6 lots for common open space and infrastructure; 5) construction of streets and utilities to accommodate residential development and construction of 78 single-family houses; 6) development of a 40-space coastal access parking lot by the City on the 80-acre residual lot; 7) rezoning of portions of the Coronado Preserve property and an adjacent City-owned parcel from Residential to the Recreation zone; and 8) an Open Space and Habitat Management Plan for a 239-acre area within the City, including proposals for a trail system, beach access, allowable uses, parking and open space amenities, and habitat protection and restoration.	NOD	
2004042047	Sanderson Subdivision Anderson, City of Anderson--Shasta The proposal is to create 243 single-family lots on approximately 194 acres. A Planned Development zone district is planned to accomodate the project, allowing for lots that vary from the standards outlined in the (R1-H-S) district regarding lot size, lot frontage, street width and cul-de-sac length standards. This project proposes extensive grading of the ridge tops with retaining walls to contain fill in order to create relatively level building sites. The site development proposal includes relatively narrow streets with 32 feet of paving as measured from the face of the curb to face of curb. Roundabouts are proposed at the main intersections. The cul-de-sacs will feature a landscape feature in a center island. The main entrance street up to the first roundabout will be divided with 12-foot wide lanes and a center lanscaped median. Other features of the development are landscaped	NOD

	streetscapes and housing design and lot layouts based around pedestrian access along paseos (landscaped walkways) between the houses and the non-building area in the canyons. The proposed Plan Development zone district and a development agreement will control the implementation of this project. Maintenance of the various public and private facilities will be through a Lighting and Landscaping District on public right-of-way areas, the ongoing maintenance of the fuel reduction measures will be provided through a vegetation management district, drainage facilities including the detention pond through a drainage district and a Home Owners Association will own the easement for the paseos and provide ongoing maintenance.		
2004042119	Castle Companies Development at St. Vincent de Paul Property Pittsburg, City of Pittsburg--Contra Costa Subdivision of a 4.56-acre property into 35 lots for single-family houses and private streets. Sizes of the proposed lots range from 3,450 to 12,045 sq. ft., with an average lot size of 4,309 sq. ft. Three house plans are proposed to be built in the development; all plans are two-story, and range in size from 1,764 to 2,138 square feet. The project includes a six-foot tall masonry wall along both street frontages and new frontage landscaping along Solari Street. On July 19, 2004, the City Council adopted an ordinance rezoning the property from RM District to PD District. The ordinance-as well as May 25, 2004, Planning Commission approvals of the vesting tentative subdivision map and architectural and landscaping plans for the construction of the houses-will become effective thirty days after the date of the ordinance's adoption.	NOD	
2004051049	Mojave River West Levee Improvement Project San Bernardino Flood Control District --San Bernardino Project will provide concrete rock slope protection to existing west levee of Mojave River. Some portions of the levee may increase up to 4 feet in height to meet design standards for containing 100-year flood. Slope protection will consist of concreted rock installed from approx. 10 ft. below channel bed surface to top of levee bank. Portions of stand of cottonwood trees will be removed to allow construction equipment to access existing earthen levee. The project was identified and discussed in the Floodplain Maintenance Plan (FMP) which provided for mitigation measures for temporary impacts to existing vegetation and riparian habitat used by protected species. The proposed improvements are needed to protect existing properties and residences located just west of the Mojave River from potential 100-year floods.	NOD	
2004052049	Call Coastal Development Permit, Special Permit and Notice of Merger. Humboldt County --Humboldt A Notice of Merger to merge APN 111-251-59 APN 111-251-60. Both parcels are currently vacant. A Coastal Development Permit for the development of an eight (8) unit apartment complex on the merged parcel. The total square footage of the apartment complex and attached garages will be approximately 11,000 square feet, with approximately 6,00 square feet of ground coverage. The maximum height of the structure will be approximately 28 feet. A Special Permit is required for Design Review. No trees are proposed to be removed and minimal grading is required for this project. A 1-foot nonvehicular access easement will be conveyed to the County along the Coral Point frontage to permit a ten (10) foot side yard setback. The Resort Improvement District will provide water and sewer services.	NOD

2004071122	Grantville Redevelopment Project San Diego, City of San Diego--San Diego Adoption of a redevelopment project area to promote land use, improve traffic flow, parking, and services, and eliminate physical and economic blight.	NOP	08/23/2004
2004071124	Tentative Tract 16621 TTM# 03-26 Fontana, City of Fontana--San Bernardino The proposed project includes the subdivision of 4 parcels totaling 19.54 acres into 55 single-family detached residential lots plus one additional lot reserved for use as a detention basin, as well as certain on-and off-site improvements to support the development. These improvements are primarily infrastructure elements, and would include an internal circulation system, drainage facilities, and sewer and water improvements.	NOP	08/23/2004
2004071127	Avalon Avenue Retail Center Yucca Valley, City of Yucca Valley--San Bernardino The proposed project would consist of the construction of a commercial retail center upon an approximately 27 acre parcel of vacant property located at the southeast corner of the intersection of Twenty-Nine Palms Highway (State Highway 62) and Avalon Road. The proposed commercial retail center would be anchored by a Wal-Mart Supercenter and supported by a gas station and accompanying outparcels likely consisting of retail, fast-food and restaurant uses. The commercial center would be approximately 250,000 square feet. The Wal-Mart store would be approximately 215,000 square feet. The site would include 1,012 parking spaces for the Wal-Mart site and approximately 400 additional parking spaces for the outparcels.	NOP	08/23/2004
2004071129	Marina Shores East Commercial Center Long Beach, City of Long Beach--Los Angeles The proposed project entails in-fill construction of a commercial center and associated parking lot on approximately 5.5 acres of the 7.05-acre project site. Gross land area consists of 307,195 square feet, with a net land (total development) area of 241,010 square feet, or 5.53 acres. Total building area will approximate 70,000 square feet, with 345 parking stall and 54,314 square feet of landscaped area. Two major structures are proposed, the first approximately 38,000 square feet plus a 5,000-square-foot mezzanine, and a second, connected structure approximately 18,000 square feet. The preliminary assessment of the project area conducted by IT Corporation in 1987 identified the former sanitary landfill as being confined to the eastern portion of the project site, with the deepest part of the landfill approximately 20 to 25 feet below sea level. The proposed design of the project considers soil stability issues, i.e., the structures would be constructed on the most stable portion of the site and parking would be located on the less stable portion of the buildable area. Approximately 53,000 square feet of non-buildable area is located immediately adjacent to the proposed parking lot, on the easternmost portion of the project site in the approximate location of the former landfill. This non-buildable area will remain undeveloped in perpetuity.	NOP	08/23/2004

2003081121	Moretti Property 6B Santa Maria, City of Santa Maria--Santa Barbara A general plan, zone change and specific plan amendment to reconfigure the land uses and associated text changes to the Blosser Southwest Specific Plan. Assessor's Parcel Nos. 117-240-006 and 117-770-006.	NOD	
2003091085	Geotechnical Investigations at the North Haiwee Dam Los Angeles County Department of Water and Power --Inyo The Los Angeles Department of Water and Power (LADWP) would perform geotechnical trenching and boring to complete design studies for the proposed North Haiwee Dam No. 2 reconstruction. The geotechnical investigation includes excavation of trenches up to 300 feet long, 10 feet deep, and varying width in seven locations near the existing North Haiwee Dam. Various geotechnical borings also would be evaluated.	NOD	
2003109090	EA 38749 General Plan Amendment No. 631 Change of Zone No. 6701 & Tentative Tract map No. 30734 Riverside County Planning Department --Riverside The applicant is proposing to grade and develop 38.5 acres into a single family residential development of 104 lots, five lots containing water quality basins, and supporting infrastructure. To develop the 104 single family residential lots, the Operator proposes to impact 0.601 acres of the 2.151 acres of onsite jurisdictional streambed and associated habitat. The project will temporarily impact 0.053 acres, and permanently impact 0.548 acres of streams and associated sage scrub, chaparral, and tamarish, eucalyptus forest and oak riparian forest habitat. Total project impacts are 0.601 acres.	NOD	
2004011027	Verhelle Bridge Replacement at Santa Barbara Airport Santa Barbara, City of Santa Barbara--Santa Barbara The applicant proposes to replace an existing bridge with a new larger structure, complete with 100 linear feet of rock rip-rap bank protection, 1000 feet downstream of the existing bridge.	NOD	
2004022071	Tentative Subdivision Tract Map TPM2003-0027 (Deubel/von Geldern) Yuba County --Yuba Construction of a 28' by 60' concrete bridge for vehicular traffic. Will include three concrete piers and RSP for erosion control. Lead agency adopted Negative Declaration for tentative subdivision tract map. Agreement and this notice pertain only to the bridge construction, an activity consistent with the negative declaration.	NOD	
2004031125	City of Redlands Orange Street and Alabama Street Bridges Replacement Project Redlands, City of Redlands--San Bernardino Project entails replacing the temporary river-crossing structures at Alabama Street and at Orange Street with permanent, all-weather crossing structures to provide reliable, permanent crossings. Funds to construct the bridges will be provided by the City of Redlands and federal funds administered by the Federal Highway Administration and Caltrans.	NOD

2004079073	E.A. 38936, TTM 29214 (Addendum to Winchester 1800 Specific Plan No. 286) Fish & Game #6 --Riverside CDFG is executing a Lake and Streambed Alteration Agreement (SAA #6-2003-5015-R6) pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Mike O'Melveny of Shea Homes Inc., Phone (714) 985-4326, 603 South Valencia Avenue, City of Brea, 92823. For Tentative Track Map 29214, the Applicant is proposing to grade and develop 160 acres into a residential development of 371 lots. To develop the 371 lots the Applicant proposes to grade and fill the entire length of the 5 unnamed watercourses. The project will permanently impact 0.803 acres of the jurisdictional waters identified on the site. Due to historic agricultural activities, no riparian vegetation or habitat remains on the site.	NOD	
2004079074	MUP 74-132W^2; LOG NO. 00-18-006B- Southbay/Nextel San Diego County Department of Planning and Land Use --San Diego The proposed facility will consist of six panel antennas to be installed on an existing 50-foot Spring PCS antenna pole. The antennas will be equally divided into two sets of three sectors and will be mounted at the 30-foot and 35-foot elevations of the pole. The electronic equipment necessary to operate the facility will be mounted on a 20 x 11.5 foot concrete pad and prefabricated shelter. An area 20 x 30 feet will be enclosed in an 8-foot high vinyl slat fence.	NOD	
2004079075	Principi Residence; AD 04-030 San Diego County Department of Planning and Land Use --San Diego The proposed project is for an Administrative Permit to encroach 16 feet, a total 2,080 square feet or approximately .066, into an open space easement to conduct minor grading and construct a pool and spa, landscaping, and retaining walls. The established open space easement was designated as part of TM 4857 (Del Mar Country Club) for the protection of steep slope lands and Southern maritime chaparral. The open space encroachment will occur in the 100 foot fuel modification and management zone. The project does not propose the location of additional structures within the encroachment area that would require additional fire clearing. It has been determined that the integrity of the established open space easement will not be impacted.	NOD	
2004079076	Half Moon Bay Landfill Gas Monitoring Wells Half Moon Bay, City of --San Mateo To install and monitor two Landfill Gas Monitoring Wells to evaluate if off-site landfill gas migration is occurring at the closed Half Moon Bay Landfill. A plan was prepared in accordance with Title 27 of the California Code of Regulations (27 CCR), Division 2, Subdivision 1 for Class 3 solid waste Landfill Closures, as required by the California Integrated Waste Management Board, and the San Mateo County Health Services Agency. The project is within the Coastal Appeal Zone and thus is appealable to the California Coastal Commission upon exhaustion of all local appeals. City File: PDP-75-03.	NOD

	the San Martin Transfer and Recycling Station (the transfer station), a municipal solid waste transfer facility located in San Martin. It also rents a property in Gilroy for its administrative offices and vehicle maintenance activities. SVDRI proposes to implement improvements that would allow the company to upgrade its transfer station activities and consolidate its operations in one location. The proposed project consists of modification to existing structures and the construction of new facilities at the transfer station site, and the relocation of SVDRI truck and garage facility, and administration offices from rented space in Gilroy to company-owned facilities on a parcel adjacent to the transfer station.		
2003032056	Southwest Manteca Specific Plan Manteca, City of Manteca--San Joaquin Business/Industrial Park and supporting commercial. Residential Mix including Single Family, Multi-Family, Estate Residential.	EIR	09/09/2004
2003112106	Villa Ticino West - Vested Tentative Subdivision Map Manteca, City of Manteca--San Joaquin The project would subdivide approximately 237-acres of land located at the southwest corner of Airport Way and Louise Avenue. As proposed, the project would contain approximately 760 single-family residential lots, an 18.55-acre commercial center, a 12.40-acre parcel designated for multiple family residential use, a city park site and a 0.78-acre fire station site.	EIR	09/09/2004
2004012010	Elkhorn-Natomas Neighborhood Electric Distribution Project Sacramento Municipal Utility District Sacramento--Sacramento Install and operate electrical system distribution substations (69,000 volts stepped down to 12,000 volts), and interconnecting 69,000 volt power lines. Prior Negative Declaration distributed in January 2004.	EIR	09/09/2004
2004071140	San Luis Obispo County Regional Airport Terminal Project San Luis Obispo County San Luis Obispo--San Luis Obispo The project is a 65,000 sf passenger terminal building at San Luis Obispo County Regional Airport (SBP ro Airport) with a three-story parking garage for 1,200 vehicles and an on-Airport roadway system.	NOP	08/25/2004
2004071141	Reclamation Plan 2003-16 (Sandman Inc.) San Benito County Hollister--San Benito Phase 1 of RP 2004-16 would occur in the first year with the excavation of 152,000 tons from the San Benito River at a depth of five feet below the lowest point in the river 'thalweg' in a roughly 8.8 acre area. Reclamation of previously mined pits is proposed on the east side of the San Benito River (10 acres +/-). Phase 2 extraction is based on replenishment. Annual supplements are proposed to determine mining depth in Phase 2. There is not a proposed final elevation of the river or termination date.	NOP	08/25/2004
2004072137	Davidon Homes Tentative Subdivision Map and Rezoning Project Petaluma, City of Petaluma--Sonoma Subdivision and rezoning of two parcels on each side of Windsor Drive at the intersection of D Street. The project will create 93 single-family homes on approximately 35 acres. The remaining 23 acres will be dedicated as open space	NOP	08/25/2004

2004072138	CMF - Mental Health Crisis Beds Corrections, Department of Vacaville--Solano The CDC proposes to construct a new Mental Health Crisis Bed Facility at the existing California Medical Facility (CMF) located at 1600 California Drive, in the City of Vacaville, Solano County, California. The proposed facility will be located within the secure perimeter of the existing CMF and will provide stabilization and treatment of inmates in a crisis state. CDC proposes to construct, operate, and maintain a single story building of approximately 42,500 sf with two 25-bed nursing units.	Neg	08/25/2004
2004072139	Development of Well #25 on the Bell Shaped Parcel Mammoth County Water District Mammoth Lakes--Mono The Mammoth Community Water District is proposing to develop Well #25, located on the Bell Shaped Parcel, for water production purposes. Well development will involve the installation of a down-hole pump, motor, associated column pipe, aboveground well structure, and other associated equipment. A short, dirt access road will also be built from the east side Meridian Boulevard to provide to access the site. The purpose of this well is to act as a redundant supply to existing production wells.	Neg	08/25/2004
2000082139	Laguna Ridge Specific Plan Elk Grove, City of Elk Grove--Sacramento Filling of 3490 LF of irrigation ditches. The south portion of the ditch will be incorporated into the south Laguna Flood Control Channel and revegetation will be required.	NOD	
2002052073	Conde Lane Business Park Subdivision (MIS 00-15) Windsor, City of Windsor--Sonoma Improvements are proposed to Pool Creek to improve hydraulic capacity, including removal of trees which have collapsed into the creek and construction of a 36" storm drain outfall on the north bank, approximately 150 feet upstream of the railroad bridge. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2004-0372-3 pursuant to Section 1602 of the Fish and Game Code to the project operator.	NOD	
2003022129	Freeport Shores Pedestrian/Bicycle Trail Project Sacramento, City of Sacramento--Sacramento The project consists of the paving and striping of approximately 1/2-mile of multipurpose trail between the existing terminus of the bike trail, located on the east levee of the Sacramento River, and the Freeport Shores Youth Sports Complex and installing a traffic signal at the Freeport Boulevard crossing.	NOD	
2003062166	Gold Miners Inn, LLC "Holiday Express" Grass Valley, City of Grass Valley--Nevada Replace a storm drain to and widen a crossing over Wolf Creek. Lead Agency adopted a negative declaration for the development of a hotel and conference center, of which this activity is a portion thereof. The agreement and this notification pertain only to the activity listed above.	NOD

2003101033	<p>Arroyo Vista School Addition of Grades 7 and 8 Capistrano Unified School District Rancho Santa Margarita--Orange</p> <p>The proposed project involves the expansion of the existing Arroyo Vista Elementary School from grades K-6 to grades K-8. As a part of this project, student enrollment will be capped at 1,050 students in grades K-8. The school site is approximately 8.5 acres. A 3-acre portion of the privately owned Arroyo Vista Park is available to the school in accordance with an existing joint use agreement. The proposed project will include the establishment of a middle school "campus" on the northern side of the school site. This campus area will include 2 two-story modular units with 20 classrooms, a new performing arts building and a new library building. A 4th-5th grade area will be established on the western side of the school site, adjacent to Las Mesitas. This area will contain 1 two-story modular unit with 11 classrooms. An upgraded electrical transformer will be added to the existing electrical equipment. The school's existing parking lot will be redesigned to include an expanded student drop-off area if approved by the State.</p>	NOD

2004079085	Third Street Boat Ramp Improvement Project Fish & Game #3 --Lake The project involves the extension of an existing boat ramp at the Third Street Boat Ramp in Lakeport, Lake County (Section 24, T14N; R10W). The existing boat ramp will be widened and deepened and will include the installation of suspended boat boarding platforms. A sheet-pile retaining wall shall be constructed along the bank adjacent to the boat ramp. The project shall require the demolition and excavation of the existing concrete abutments with Clear Lake and installation of a sheet-pile retaining wall. Steel pipe pilings shall be driven into Clear Lake to provide support for the suspended boarding platforms. Base material, leveling rails and pre-cast concrete ramp segments shall be placed on the lake bottom. The new concrete boarding platform will be cast in place above the water line of Clear Lake. The second phase of the project will replace the existing rock slope protection with a sheet-pile retaining wall. This will require the removal of aquatic and riparian vegetation for approximately 300 linear feet. The CDFG is executing a renewal of Lake and Streambed Alteration Agreement Number 1600-2004-0367-3 pursuant to Section 1602 of the Fish and Game Code.	NOD	
2004079086	Nut Tree Airport Hangar Construction Fish & Game #2 --Solano Construction of drainage system that will culminate in a 15" RCP draining to channel. RCP will around the pipe. A 12" water line will be trenched across the bottom of the tributary. Lead agency filed a negative declaration for entire project. Agreement and this notice pertain to the activities noted above.	NOD

2004078469	Driveway Culvert Installation, Tributary to Lobo Canyon Drainage Fish & Game #5 Agoura Hills--Los Angeles The Operator proposes to alter the streambed to construct a driveway between a single family residence and a barn which will require crossing an ephemeral drainage. Cut and fill of the slope and the driveway crossing will necessitate the placement of fill within the drainage and installation of a drainage culvert to convey storm flows beneath the driveway. The drainage is approximately 15 feet wide within Department jurisdiction. The Driveway construction will result in a temporary impact of 300 square feet and a permanent impacts of 1853 square feet to riparian resources which include the drainage and associated upland chaparral vegetation.	NOE	
2004078470	Peterson Hall 3 Replacement Building California State University Trustees Long Beach--Los Angeles CSU Long Beach wishes to proceed with the demolition of the existing Peterson Hall Building and the Science Lecture Halls 48-50, and the construction of a single science replacement building. The demolition of Peterson Hall 3, a functionally obsolete instructional science facility designed in the 1950s and built in 1962, is estimated to take four months. Construction of the new replacement building of approximately 95,000 assignable square feet and 154,000 gross square feet will begin immediately following demolition. Construction is expected to take	NOE

2004078471	DMC Recirculation Pilot Study Water Resources, Department of Newman--Merced, Stanislaus This pilot project involves releasing 200-300 cfs of water from the Delata Mendota Canal (DMC) into the Newman Wasteway. From the wasteway, water will enter the San Joaquin River and flow into the Delta. This volume of water will then be recaptured at Tracy Pumping Plant and returned into the Delta Mendota Canal. An additional component of this pilot will be Joint Point of Diversion at Banks Pumping Plant.	NOE	
2004078472	Petition by Sonoma County Water Agency Requesting Approval of a Temporary Urgency Change in Permits 12947A, 12949, and 16596 in Mendocino and Sonoma Counties Sonoma County Water Agency --Mendocino, Sonoma Sonoma County Water Agency (SCWA) is requesting that, for the remainder of the current year (2004), the State Water Resources Control Board (SWRCB) temporarily change some of the instream-flow requirements in SCWA's water-rights permits from those that normally apply during Normal hydrologic conditions to those that normally apply during Dry hydrologic conditions. This action is intended to prevent storage levels in Lake Mendocino from dropping to very low levels by the end of the dry season, as occurred in 2002, thereby protecting adult salmonid migration upstream in the fall, and preventing even lower storage levels should water year 2005 be Dry or Critically Dry. 1991103062	<p>Montanera Project in the Gateway Valley / Second Amendment to the Development Agreement</p> <p>Orinda, City of</p> <p>Orinda--Contra Costa</p> <p>The proposed development plan includes modifications to the Final Development Plan and Development Agreement Amendment approved by the City in 1999. The new SEIR will address only the differences between the proposed development plan and the development plan described in the 1999 Final Development Plan. The proposed development plan includes the aboveground re-routing of the 115 kV Moraga-Claremont power line that currently crosses the project site in a generally east-west alignment to a generally north-south alignment. Based on its initial review of the proposed development plan, the City has determined that the proposed aboveground re-routing of the power line will result in significant new visual impacts that cannot be avoided. Based on this initial finding, the City has determined that preparation of a second supplemental EIR (new SEIR) is required pursuant to Section 15163 of the CEQA Guidelines.</p>	NOP	08/27/2004
